What our customers say

"Before Jade ThirdEye, it was taking a very long time to spot suspicious and unusual activity and flag it. We can now clear the alerts in a timely manner, getting rid of the three-week delay that used to exist."

Jane Quinn

Operations Risk & Compliance
Manager, Fexco

"It is intuitive and flexible, and the local support team really understands AML and our business needs, and how that translates into a technical solution."

Mathew Gray

Accounting & Compliance,
Police Credit Union

How we can help

Advanced transaction monitoring with integrated customer screening

An efficient, single system for critical workflows, a consolidated source of truth, and flexibility to work with either Dow Jones or Refinitiv World-Check data.

Write, test, and publish rules

You have the control to make changes in response to emerging risks, new regulations or your evolving risk profile.

Simple and easy to use

Get started and train your team quickly, spot suspicious behaviour, and spend more time on investigative efforts, with user-friendly web-based interfaces, dashboards, and workflow tools.

Near real-time monitoring

Detect suspicious behaviour as soon as it occurs.

Comply with confidence

Monitor increasing volumes of transactions and quickly identify and report on high-risk customers and activities.

Automated SARs and PTRs

Save time with pre-populated reports and automated submissions to the FIU.

Comprehensive AML Case Management

Perform comprehensive investigations into suspicious customer behaviour and create detailed customer profiles, stored in one central location.

SaaS and subscription-based

Benefit from low cost of ownership, limited IT overhead, the ability to scale, and seamless access to the latest features.

Trusted professional services

Access local support and subject matter expertise to maximise your AML/CFT compliance; trusted by more than 160 reporting entities globally.

Secure and reliable

Be confident that your data is secure within our ISO 27001 certified framework of rigorous processes and internal checks.
